SUMMARY

A results-driven Maintenance Senior Manager with over 20 years of experience in managing maintenance, operations, services with team leadership competencies, and implementing cost-effective solutions in steel manufacturing. Proven expertise in improving equipment reliability, executing large-scale maintenance activities & projects, and optimizing operational efficiency.

EXPERIENCE

Steel Plants Maintenance Senior Manager | SABIC / HADEED, KSA

July 2021 – Present

- Lead maintenance department across three steel plants (Long Product I & II, Flat Product).
- Oversee preventive, predictive, and corrective maintenance, driving plant reliability and safety to achieve operation excellence.
- Collaborate with the Turnaround and Central Maintenance departments for scheduled downtimes and shutdowns.
- Implemented a strategic spare parts procurement plan to reduce costs and downtime.
- Improved reliability index from 0.6 to 0.9 through continuous process optimization & improving maintenance practices.
- Successfully led completion of six annual turnarounds and increased production efficiency.

Workshop Senior Manager | SABIC / HADEED, KSA

April 2020 – July 2021

- Managed central mechanical and electrical workshops, delivering critical support to plant operations.
- Developed and outsourced three major scopes to reduce costs and enhance workshop availability.
- Coordinated annual overhauls for all HADEED Plants key equipment, ensuring timely and effective services to support HADEED plants Turnaround.

Electrical Operation & Maintenance Manager | SABIC / HADEED, KSA

2015 – March 2020

- Led maintenance section of HADEED electrical substations and utility systems for all HADEED plants.
- Collaborated with Saudi Electricity Company (SEC) to reduce power restrictions, saving approximately SAR 14 million annually.
- Successfully executed 49 major turnarounds and drove the completion of complex projects, including the upgrade of PLCs and main substation equipment.

Direct Reduction Modules Maintenance Manager | SABIC / HADEED, KSA

2013 – 2015

- Led maintenance team for Direct Reduction plants Modules AB and C, ensuring continuous plant availability.
- Completed turnaround maintenance activities & projects safely and efficiently, maintaining high performance standards.

Steel Plant Long Product I Operation Manager | SABIC / HADEED, KSA

2007 – 2013

- Managed steel billet production, leading four major sections (Melting, Caster, Quality, and Automation).
- Achieved consistent production milestones, setting new records for tonnage and operational safety.

Electrical Engineer, Steel Plant Flat Product | SABIC / HADEED, KSA

2003- 2007

- Attend daily routine maintenance activities.
- Led Electrical maintenance team for constructing & commissioning new electric ARC furnace, ladle furnace, material handling & de-dusting systems with involvement of OEM (Primetal).

EDUCATION

Bachelor Degree In Electrical Engineering, Second Honor | King Fahad University of Petroleum & Minerals • KSA • 2003

TRAINING COURSES

1. Root Cause Analysis Investigator
2. SABIC Unified Work Permit Certified
3. Supervisory, Budgeting, and Leadership Skills
4. Maintenance Management and Reliability
5. Electrical Network Fault Analysis
6. Project Management and Leadership
7. Safety Leadership and Risk Assessment
8. Finance for non-finance
9. Coaching and Mentoring
10. Developing Emotional Intelligence
11. Business Continuity Training
12. Navigating Other People's Emotions
13. Navigating Your Own Emotions
14. The Essentials of Anger Management
15. Attended Asset Maintenance& Reliability Conference - 2022

SKILLS

Maintenance Management | Asset Performance Management | Preventive & Predictive Maintenance | Team Leadership & Development | Cost Control & Budgeting | Turnaround & Shutdown Planning & Execution | Project Management & Leadership | Coaching and Mentoring.
