WORK EXPERIENCE

Lead Frontend Engineer — **Junehomes**
June 2021 - Present
New York, USA, Remote

- Led a team of 4 frontend developers, collaborating closely with the design team to define solutions for seamless interaction, participated in sprint planning, and optimized development processes and CI/CD workflows.
- Led and developed key features, including a favorites page, room catalog filtering system, media gallery, and other essential components.
- Implemented unit and e2e testing infrastructures, reducing task returns from QA by 20%, decreasing task lifecycle time, and cutting regression testing time by 50%.
- Optimized website performance by 40%, improving conversion rates and increasing traffic by 25%. Implemented caching, prioritized image loading, and refactored components to reduce JavaScript blocking time and prevent layout shifts.

Frontend Community Lead — **Raiffisenbank**
August 2019 - June 2021
Moscow, Russia

- Led a team of 5 frontend developers and mentored junior team members to improve skills and productivity.
- Served as one of the main contributors and key drivers of the bank's design system, which expanded from a small team to over 80 teams. Developed 100+ reusable components for web and mobile, which have been used over 10,000 times.
- Developed and implemented web applications for mortgage processing, enabling users to complete loan applications remotely. Increased digital channel adoption from 15% to 90% of all applications, significantly reducing the need for managerial staff.
- Promoted internal open-source initiatives and advocated for engineering best practices within the bank.
- Acted as the principal initiator and architect of an innovative CMS system, enabling managers to create and update content without coding by using pre-built components, significantly improving accessibility and efficiency.
- Presented at internal meetups and conferences to share knowledge and drive innovation.

Senior Frontend Engineer	**Rocketbank**	2018 - 2019		Frontend Engineer	**EST Taxi**	2015 - 2017
Senior Frontend Engineer	**Sberbank**	2017 - 2018		Developer Intern	**ADCI Solutions**	2014 - 2015

Open to new challenges and deeply engaged in the frontend development field. Experienced in building applications from scratch as well as optimizing large-scale projects. Regularly speak at conferences and write articles. Always eager to identify areas for improvement, I am approachable, open to discussions, and ready to collaborate.

EDUCATION

M.S. Computer Security   Dostoevsky Omsk State University
2011 - 2017

Omsk, Russia

TECHNOLOGIES AND LANGUAGES

React, Redux, Typescript, Mobx, ES6, Webpack, Rollup, Vite, Storybook, Nextjs, Jest, Puppeteer, Playwright, Cypress, Nodejs, Express, Nestjs, Monorepo, Lerna, Nx.
