Professional Summary

Adept Full Stack Developer with over 4 years of comprehensive experience in web development, specializing in both front-end and back-end technologies. Demonstrated expertise in driving successful project completions through Agile methodologies and collaborative team leadership. Known for optimizing web performance and user experience, consistently delivering solutions that align with evolving technological trends. Significant achievements include significantly improving the design and functionality of web applications, focusing on user-friendly interfaces and seamless performance, which led to increased user satisfaction and engagement.

Core Competencies & Major Highlights

- **Agile Project Leadership**: This point was retained as is, highlighting the client's leadership skills in driving teams using Agile methodologies.
- **Responsive Web Design Expertise**: Enhanced to emphasize the client's expertise in creating user-centric, responsive web interfaces, ensuring optimal performance across various devices.
- **Advanced JavaScript Training and Application**: This point remains largely unchanged but is emphasized to showcase the client's role in elevating the team's technical skills, particularly in JavaScript.
- **RESTful API Development & Maintenance**: Maintained as in the original resume, highlighting the client's pivotal role in API development and maintenance.
- **Enhanced System Security**: This point is retained, showcasing the client's focus on implementing advanced security protocols.
- **Cross-Functional Team Collaboration**: Emphasized the client's ability to foster collaboration between different teams for a cohesive user experience.
- **Performance Optimization**: This competency was highlighted to reflect the client's achievements in improving application performance, as indicated by metrics like PageSpeed scores.
- **Innovation in Feature Development**: Retained from the original resume to highlight the client's leadership in introducing innovative features in web applications.

- Analyzed existing software implementations to identify areas requiring improvement.
- Developed functional databases, applications and servers to support websites on back-end.
- Developed fully functional websites using the MERN Stack and worked on complex logics.

Technical Skills

- HTML5, CSS3
- JavaScript, Reactjs
- Nodejs, Expressjs
- MongoDB, Nextjs
- AWS, Bootstrap
- Tailwind CSS, Typescript
- auth0, GraphQL, Threejs
- Figma, React Native, Expo Go
- React Redux, Python
- React Query, Three.js
- Websocket, Git and Github
- DNS Management, Cloudflare CDN
- RESTful API Development
- MERN Stack
- Cross Browser Compatibility

Education

- **Code Academy |** Full Stack Development
- **WCU - Baku |** Bachelor of Science   Expected in 05, 2026

Key Projects

Hope Lake (Hotel Website) – Link: hopelake.netlify.app
- *Role & Responsibilities*: Led both frontend and backend development, overseeing the entire development life cycle.
- *Technologies Used*: Git · Back-End Web Development · Mern · MERN Stack · Front-End Development
- *Notable Features*: It has a really great and elegant design and you can make bookings too.

Plum – Link: plumyuzbor.com
- *Role & Responsibilities*: Full Stack Developer working with animations and 3D Elements.
- *Technologies Used*: Three.js fiber, Drei, Vite, React
- *Notable Features*: Completely 3D Website with beautiful UI and amazing interactivity.

Anita Impex– Link: anita-impel-website5.vercel.app
- *Role & Responsibilities*: Spearheaded frontend and backend development, ensuring seamless integration.
- *Technologies Used*: Express.js · MongoDB · Node.js · React.js · MERN Stack
- *Notable Features*: Beautiful animations and completely responsive along with a professional user interface
