PROFESSIONAL SUMMARY

As a results-driven software engineer, I possess a solid foundation in programming languages and a proven track record in developing efficient and scalable solutions. With a keen eye for detail and a commitment to staying current with industry best practices, I bring a proactive and collaborative approach to software development projects.

WORK HISTORY

COMPU-VISION S.A.R.L. - **Laravel Developer**
04/2023 - 05/2023
As an experienced Laravel developer, I've successfully contributed to a project like Akkary Construction (https://akkaryconstruction.com/), showcasing my expertise in creating robust and scalable web applications.

Codepickles - **Mobile Applications Developer Using Flutter**
07/2022 - 03/2023
I have practical experience as a Flutter developer, having made significant contributions to a mobile application project.

Eddy's Group - **Laravel Developer**
04/2022 - 05/2022
I have hands-on experience in Laravel development, actively contributing to the creation of the La Baytek website (https://labaytek.com/) and the Begonia Group website (https://begonia-group.fr/). My role involved leveraging Laravel's capabilities to enhance functionality and deliver robust web solutions for both projects.

Vanrise Solutions - **Web Developer Intern**
07/2023 - 08/2023
During my internship, I developed a Phone Number Reservation website, utilizing a tech stack that included JavaScript, HTML5, CSS, Bootstrap, AngularJS, C#, and MSSQL within the .NET ecosystem. This experience honed my skills in full-stack web development, from frontend design using modern frameworks to backend logic and database management.

CERTIFICATIONS

- Certificate of participation as a team member in the NERD17 - University of Balamand / Education and Technology Center (Robotics FLL).
- Certificate of participation for attending the 5th Arts and Sciences Fair - LAU.
- CISCO CERTIFIED NETWORK ASSOCIATE V7
    - Introduction to Networks.
    - Routing and switching and wireless essentials.
    - Enterprise Networking, Security, and Automation.

EDUCATIONS

Université D'Artois, Lens, France
Master 2**:** Software Engineering (Ingénierie logicielle pour l'internet)

06/2023
Antonine University, Lebanon
Computer and Communications Engineering

07/2019
Collège Notre-Dame Des Sœurs Antonines, Lebanon
High School Diploma
